Subject: Re: LRBa2253

Please go ahead and draft it for Sen. Jauch with both changes. A new amendment number is fine.

Jim,

1. I drafted SB 300 some time ago. Since then I decided that the inclusion of deductibles doesn't make a whole lot of sense. The deductible is for the entire policy and isn't usually increased or decreased for a specific illness. Therefore, I did not include the term in the amendment. If the absence of the term is a concern, I can include it. I think it doesn't need to be included but its inclusion would not be problematic either.
2. Sure, there is no reason the language including all medications not individual prescriptions cannot be used with the language from the other amendment.

For the moment, I'm assuming I'm awaiting your final decision on these changes before drafting another amendment. Just let me know if you want a version of a2253 with "deductibles" included or with the medication language or both. To make it easier, instead of redrafting a2253, I can just get you a new amendment number including the changes you request.

Subject: LRBa2253

Tamara,

Good afternoon. I have a couple of questions about LRBa2253:

1. SB 300 refers specifically to copayments, deductibles, and coinsurance. However, Part 2 of LRBa2253 only refers to copayments and coinsurance. Is there a reason that 'deductibles' isn't included?
2. The other amendment you drafted for Sen. Jauch, LRBa2254, included language that would clarify that the \$100 cap was for all medication, not individual prescriptions. Once we figure out the above question, I'd like to talk to you about a redraft that also includes this language.

Please feel free to clear this with Jeff in Sen. Jauch's office before proceeding if you need to.

Thanks,

Jim Stoa
